Harvest: September 8, 2017 (field blend)

Fermentation: Wild Yeast and Malolactic

Alcohol: 10.5%

Production: 46 cases

Tasting Notes

Dried fig, red plum, slate and pine.

Winemaker's Notes

Field blend was foot-stomped and co-fermented into small open-top bins. Wild yeast and malolactic fermentation. Twice daily punch downs. Pressed after four days into small Flextank. Racked off gross lees after four months. No acidulation or other "corrections". Cold settled, and bottled unfiltered on 3/25/2018.

Every bottle and can of wine we produce, before it is ever sold, is climate neutral.

Every monthly purchase of one bottle or four-pack of cans has the same positive impact on our climate as a mature tree.
